

New Master of Science in Global Urban Health (MSc GUH)

*Starting in October 2016 at the University of Freiburg,
Germany*

This modular course in English is intended for postgraduate students awarding 75 credit points (ECTS). The MSc GUH will be taken as FULL TIME STUDY (one academic year). The initial phase will be in Freiburg (9 months) and the subsequent field study (for the MSc thesis) will be done abroad or as desk study in Freiburg. The course includes cross-disciplinary approaches with inputs from several faculties of Freiburg University and external lecturers, organized by the “Centre for Medicine and Society” on behalf of the Philosophical Faculty. There will be excursions to Geneva, Basel, Strasburg and other places of interest.

TOPIC AREAS

The MSc in Global Urban Health is organized through an interdisciplinary effort covering different topic areas in relation to urban health needs

Analysis tools (Epidemiology, Statistics, Social Sciences, Economics, Geography, Anthropology)
